

Parking Garage: Closure

Starting August 21, 2010 the parking garage will be closed.

As part of the construction process, our parking garage will be demolished. Parking will not be available on site until completion of the new building.

While you can continue to use the garage until August 21, 2010, you should start planning alternatives now. As always, we encourage staff and patients to take public transportation.

For up-to-date information about the progress of Women's College Hospital's new building please visit www.womenscollegehospital.ca/redevelopment.

See reverse for details of parking options.
